## MVL IndiHomes

Among several other private developers who are making contemporary-style apartments is MVL. This renowned real estate company has launched its first affordable housing project called MVL IndiHomes. This residential complex of MVL is likely to pose a swanky structure outlook, located quite strategically in terms of the convenience and comfort of hundreds of inhabitants. The company boasts of not only its attractive price tag of Rs 9.38 lakh for 800 sq ft apartment, but also of free power back-up, free parking, and no maintenance charges for the first year. The highlight of the project is also its transparency. There is no hidden cost, other than the one which is tagged, to surprise its customer later.

Citing the reason for sudden real estate development in Bhiwadi, Praveen Kumar, Director, Sales and Marketing, MVL, says, "There are numerous SEZs coming up in and around Bhiwadi that are the prime reason behind this sudden outburst of real estate developments in the city."
