MANAGEMENT DISCUSSION AND ANALYSIS

1. Real Estate Sector in India

The real estate sector is one of the most globally recognised sectors. In India, real estate is the second largest employer after agriculture and is slated to grow at 30 per cent over the next decade.

The Indian real estate market has become one of the most preferred destinations in the Asia Pacific as overseas funds accounted for more than 50 per cent of all investment activity in India.

The real estate sector comprises four sub sectors - housing, retail, hospitality, and commercial. The growth of this sector is well complemented by the growth of the corporate environment and the demand for office space as well as urban and semi-urban accommodations.

India's Tier-I cities moved up to the 36th rank in JLL's 2016 bi-annual Global Real Estate Transparency Index. The catalysis factors for this were improvements in structure reforms and the more liberalized foreign direct investment (FDI) regime. Increased transparency brings higher investments into such real estate markets.

2. Market Size

The Indian real estate market is expected to touch US\$ 180 billion by 2020. The housing sector alone contributes 5-6 per cent to the country's Gross Domestic Product (GDP).

In the period FY08-20, the market size of this sector is expected to increase at a Compound Annual Growth Rate (CAGR) of 11.2 per cent. Retail, hospitality and commercial real estate are also growing significantly, providing the much-needed infrastructure for India's growing needs.

Private Equity (PE) funds and Non-Banking Financial Companies (NBFCs) in India are seen increasingly investing jointly in real estate projects, in order to hedge risk and undertake bigger transactions.

3. Investments

The Indian real estate sector has witnessed high growth in recent times with the rise in demand for office as well as residential spaces.

Private equity activity looks healthy in 2017- thanks to a strengthening and modernizing economy, and the growing reputation of India as an attractive investment destination. India is ranked fourth in developing Asia for FDI inflows as per the world Investment Report 2016 released by UN Conference for Trade and Development. The Real Estate saw equity investment on a very visible return journey to India last Year. Indian Real Estate has attracted \$32 Billion in equity so far. The global capital flow into Indian Real Estate in 2016 stood at \$5.7 billion.

4. Government Initiatives

Thanks to change in its regulatory network, India is now way more attractive to both Global and Indian Investors. Increased consolidation and transparency, through RERA (Real Estate Regulation Act) and the launch of REIT, (Real Estate Investment Trusts) this year –will further whet their appetites for getting a piece of Indian real estate pie.

The Goods and Service Tax (GST) and Benami Property Act will also have a major impact on how many developers run their businesses. Demonetization shook up the older ways of working, but did not affect self-governing developers with the right products targeted at the working masses. The rest have realized it is time now to revamp their existing business models if they want to remain in business at all. Market watchers who had despaired of the Indian real estate market ever shedding its tainted image have every reason to perk up now.

5. Road Ahead

Responding to an increasingly well-informed consumer base and, bearing in mind the aspect of globalisation, Indian real estate developers have shifted gears and accepted fresh challenges. Real estate developers, in meeting the growing need

for managing multiple projects across cities, are also investing in centralised processes to source material and organise manpower and hiring qualified professionals in areas like project management, architecture and engineering.

Affordable housing in India is finally set to get the much-coveted infrastructure status. One crore houses are to be built in rural India by 2019, and this vital segment will now see cheaper sources of finance. Re-financing of housing loans by National Housing Banks (NHBs) can give a further boost to the sector.

A new Credit linked subsidy scheme (CLSS) for the mid-income group with a provision of Rs.1,000 crore in 2017-18 was announced even before Budget 2017-18. Extension of tenure of loans under the CLSS of Pradhan Mantri Awas Yojana (PMAY) was increased from 15 to 20 years, and the Budget also increased allocation to PMAY from Rs.15,000 crore to Rs. 23,000 crore in the rural areas.

The qualifying criteria for affordable housing were also revised to 30 sq. m. and 60sq. m. on Carpet rather than saleable area in the four main metros and non- metros respectively. This effectively increases the size of affordable housing market across India. Moreover, the demonetization of high-value currency notes will cause land prices to ease in the next few years- especially in far-flung areas around Indian metros and the Tier-II and Tier-III cities. The government's dream of Housing for All by 2022 appears a lot more attainable now.

6. SWOT- Real Estate Industry

Strengths

- Development primarily based on strong realistic demand with limited speculative activity;
- Among the highest yield in the economy;
- Wide gamut of government initiatives which have helped FDI entry in the sector;

Weakness

- Still largely an unorganized market with dominance of local level developer;
- High transaction cost and need of greater transparency;

Opportunities

- Has strong demand drivers going forward- IT-ITES, tourism, increasing consumerism, industrial manufacturing outsources etc;
- Affordable housing will be a volume segment in the future and the government of India has laid appropriate tax reliefs for such projects;

Threats

- No regulatory body to monitor performance;
- Procedure to obtain licenses are time consuming;
- Infrastructure development by local governments is slow thereby affecting the pace of projects progress;

In MVL, our thrust area is tier II and tier III cities and affordable housing which are promising business destination and concept in coming years. All land is fully consolidated without any dispute and litigation and are in confirming zone as per master plan in the respective area.

7. Financial and operational performance

During the year under review, the company recorded Revenues of Rs. 9.74 crores with profit after tax of Rs (2.03) crores. There is decline in the over all sales Revenues and profitability during the year. The financial projections of the company including its cash flows were majorly impacted because of delay in getting approvals for new projects of the company. Some of new projects could not be launched within the financial year which further resulted into fall in Revenues. But the company

MVL Limited

is sure that during the current financial year, with the launch of new projects, the top line and bottom line of the company will get improved.

8. Adequacy of Internal Controls

Your statutory auditors have confirmed the adequacy of the internal procedures in their report.

The company strictly follows the philosophy of congenial work environment, performance oriented work culture, knowledge, skill building, creativity, responsibility and performance based compensation. There is a constant emphasis in the company for development of skills through training and workshops.

10. Risks and Concerns

In India the real estate market is largely unorganized and dominated by a large number of small players with their limited corporate or large names on the national level. The risks synonymous to the real estate industry includes the global recessionary trend, economic slowdown, increase in financial charges, non availability of raw materials such as land, steel, labour coupled with market fluctuations.

MVL is adequately equipped to face and mitigate any such adverse situation. The Company does not apprehend any inherent risk in the real estate industry in the long run, with the exception of certain primary concerns that have afflicted the progress of real estate industry in general like restrictive legislation in government policies, limited investment from the organized sector, tax burden, rising inflation, high interest rate, volatile global economic environment etc.

We have audited the internal financial controls over financial reporting of MVL Limited ("the Company") as of March 31, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for my /our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

MVL Limited

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

35. In the opinion of Directors, the current assets, loans and advances including advances for purchase of land have value on realization in the ordinary course of business at least equal to the value at which they are stated in the forgoing Balance Sheet except as otherwise stated.

**NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31.03.2017**

37. Disclosure in respect of Specified Bank Notes (SBN) held and transacted during the period 8th November, 2016 to 30th December 2016

	SBNs	Other denomination Notes	Total
Closing cash in hand as on 8.11.2016	3,90,000	13,67,911	17,57,911
(+) Permitted receipts	Nil	Nil	Nil
(-) Permitted payments	1,25,000	3,70,655	4,95,655

Closing cash in hand as on 30.12.2016	Nil	9,97,256	9,97,256

Explanation: For the purposes of this clause, the term 'Specified Bank Notes' shall have the same meaning provided in the notification of the Government of India, in the Ministry of Finance, Department of Economic Affairs number S.O.3407 (E), dated 8th November, 2016.

38. Penal Interest on loan from banks and financial institutions, if any, payable for accounts declared as NPA by the lenders has not been provided, since the liability for such penal interest is uncertain and is of discretionary nature.
39. As per managements decision during F.Y. 2014-15, it was resolved that no interest be provided w.e.f. 01.04.2014 on bank and institutional loans declared as NPA on which lenders are also not providing interest. The management had then decided to take final call for such liabilities after negotiation and settlement with lenders.

In consequence of the above decision of the management:-

Interest of Rs 26,46,73,186/- (previous year Rs.22,75,35,705/-) being the interest directly related with the projects has not been included in the construction cost of respective projects and interest of Rs. 20,94,67,201/- (Previous year Rs. 18,21,49,868/-) not directly relating to any project, has not been charged to Statement of Profit and Loss during the year. Total liability towards interest on loans from banks and financial institutions not provided in these financial statements during the year is Rs 47,41,40,387/- (previous year Rs. 40,96,85,573/-).

Out of this, Interest amounting to Rs. 26,46,73,186/- (previous year Rs.22,75,35,703/-) directly related with real estate projects was to be expensed as direct project cost, which would have resulted in change in the percentage of completion, as well as escalation of budgeted project cost, on account of inclusion of interest not initially included in the said project cost.

Net effect of non provision of interest on loans from banks and financial institution declared NPA is that :-

- i) Revenue from operation is understated by Rs. 4,49,98,789/- (Previous year Rs. 18,99,09,679/-) arising out of percentage of completion (POC) method of accounting, due to non-capitalization of interest directly attributable to project work-in-progress.
- ii) Loss from operation is understated by Rs. 42,91,41,598/- (Previous year Rs.21,97,75,894/-)
40. a) During the preceeding financial years, the company had mortgaged some of its land parcels situated at Neemrana and Bhiwadi to secure loans availed by its group concern. During the years 2013-14 and 2014-15, the company got the lien lifted on the mortgaged properties on which project development was to be undertaken, by taking over the loan liabilities of the group concern of the value of Rs. 40.00 crore. By virtue of this transaction, the loan liability was shown under the head 'secured loans' whereas the corresponding debit was shown under the head 'Loans and advances to group concerns'.
- b) As on 31.03.2017 advances to Group Companies, amounting to Rs. 2726.34 lacs, (Previous year Rs. 2815.94 lacs) are considered doubtful of recovery for which no provision has been made in these accounts. Interest is not provided on advance of Rs. 64.50 lacs.

**NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31.03.2017**

41. Trade receivables include Rs. 277.04 crores (Previous year Rs. 274.63 crores) representing unbilled receivables. These debts represent amounts receivable on the basis of sale accounted for, under the Percentage of Completion (POC) method. The recovery of these debts is subject to sale of unsold inventories, completion and delivery of projects.

Interest of Rs 26,46,73,186/- (previous year Rs.22,75,35,705/-) being the interest directly related with the projects has not been included in the construction cost of respective projects and interest of Rs. 20,94,67,201/- (Previous year Rs. 18,21,49,868/-) not directly relating to any project, has not been charged to Statement of Profit and Loss during the year. Total liability towards interest on loans from banks and financial institutions not provided in these financial statements during the year is Rs 47,41,40,387/- (previous year Rs. 40,96,85,573/-).

Out of this, Interest amounting to Rs. 26,46,73,186/- (previous year Rs.22,75,35,703/-) directly related with real estate projects was to be expensed as direct project cost, which would have resulted in change in the percentage of completion, as well as escalation of budgeted project cost, on account of inclusion of interest not initially included in the said project cost.

Net effect of non provision of interest on loans from banks and financial institution declared NPA is that :-

- i) Revenue from operation is understated by Rs. 4,49,98,789/- (Previous year Rs. 18,99,09,679/-) arising out of percentage of completion (POC) method of accounting, due to non-capitalization of interest directly attributable to project work-in-progress.
